

Critical Information Summary for your NBN™ 100 unlimited business premium data plan

Information about the Service

SERVICE DESCRIPTION

The More Telecom NBN™ 100 Unlimited Business Premium Plan is an internet service provided over the National Broadband Network (NBN™) and is available in NBN™ enabled areas.

HARDWARE REQUIREMENT

You will require an NBN compatible modem/router for this service. A router is provided free of charge on a 24 month plan.

KEY DETAILS

This service is provided on a 24 month contract.

Your NBN™ 100 plan includes unlimited premium data with interface speeds* of up to 100Mbps* download and 40Mbps* upload and Enhanced Service Level Agreements (SLAs).

*Interface speeds refer to the speed of the technology installed at your premises. They are not necessarily equivalent to the download/upload speeds you will achieve in practice. Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded.

In the case of NBN connections delivered using FTTN (fibre to the node) technology the distance you are from the node will affect maximum available speeds.

STANDARD INSTALLATION REQUIREMENTS

Standard Installation is included with your plan and is provided to the first telephone point in your premises. A 240 volt power supply is required and you must ensure such a power supply is available. In the event of a power outage, your services will not work unless you maintain a back-up battery. If you take up an NBN service, you will not be able to move back to a copper service.

Information about pricing

SERVICE DETAILS

This More Telecom NBN™ service is provided using the NBN Co. network. More Telecom is responsible for the service to you (the Consumer) and is not affiliated or related to NBN Co.

BILLING

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle. It is free to receive your monthly bill via email. A print bill charge of \$2.95 applies to printed bills.

IMPORTANT: Billing for your NBN service will commence from the day that the NBN activation is completed by NBN™. Please note that this is not when you plug in the modem and get online. As such we urge you to start using the service as soon as you can as charges will have already commenced.

BROADBAND SPEEDS

Actual speeds you will receive will vary due to a number of factors such as the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded. We offer Premium bandwidth plans for an additional \$10 per month, which can improve performance during peak usage times.
