

Critical Information Summary for your NBN Unlimited Data, Phone Bundle.

Information about the Service

SERVICE DESCRIPTION

The More Telecom NBN Unlimited data, Phone Bundle provides your business with a state of the art office phone and an unlimited NBN data service. Additional phones can be added to this plan. The phones use the Internet to make and receive calls.

HARDWARE

You will be supplied with a minimum of 1 NBN ready phone and an NBN modem. If you cancel your service the hardware must be returned to us within 30 days otherwise a non-return fee of \$149.95 per device will apply.

KEY DETAILS

This bundle plan is provided on a 24 month contract.

Your NBN service includes unlimited NBN data and has interface speeds* of between 40Mbps and 100Mbps* download during business hours and Enhanced Service Level Agreements (SLAs).

*Interface speeds refer to the speed of the technology installed at your premises. They are not necessarily equivalent to the download/upload speeds you will achieve in practice. Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded.

Your NBN Phone Service allows you to make and receive phone calls. The plan included unlimited local and national calls within Australia and free calls between other More Telecom NBN Business Phone Services. Other calls and optional value added services and any other equipment are charged in addition to your Monthly Access Fee.

This service may not be suitable if you require an uninterrupted phone service with access to 000 emergency services. The service will not function in the event of a power failure. Priority assistance is not available on this service.

STANDARD INSTALLATION REQUIREMENTS

An Internet service with a minimum of 100kbps/100kbps per concurrent call is required for a More Telecom NBN Phone Service to work. The NBN service provided in this plan is more than capable of providing the necessary minimum speeds however other activity on your local network may affect call quality. You can upgrade your NBN speed if you require additional bandwidth on your local network.

You are required to install the handset(s) supplied as part of your More Telecom NBN Phone System Bundle plan. This includes any associated cabling, configuration or your network and any routers and/or switches within your network to allow the IP handsets to work.

Installation options can be arranged at an additional charge. For more information please speak to our customer service team on 1800 733368.

Standard connection to the NBN is included in this plan. Any non-standard installations may attract additional charges. If your property is deemed part of a greenfield development a \$300 charge will apply for connection to the NBN.

Information about pricing

BUNDLE PLAN	1 PHONE BUNDLE
Contract term	24 months
Monthly access fee	\$129.90
