

## BYO Modem Terms and Conditions

**If you choose to use your own modem to connect to the nbn™, it is important that you are aware of the follow terms and conditions:**

- 1. Your BYO device must support the nbn™ technology used to deliver nbn™ to your property.**
- 2. You are confident in configuring the device yourself.**
- 3. You are responsibility of network configuration.**

**If you are unsure on any of the above we recommend engaging an IT firm to help you get set up. We can assist with this if required. Please note that additional costs will apply for network configuration.**
